Does the QAPP have a title and who approved it? Does he mean in the QA group?? I'll add it to the SOW if you can track that down.

Hi Robin –

This is a good beginning for our Region. I think it should work for now – note that the title of the QAPP and name of who approved it should be included. Please do your best to document your discussion with USGS. Could be a line or two in an email.

Thanks!

Tom

Tom, can we talk. See below. Is this enough for the SOW? I also put language in the IA document itself referencing Tech Law QAPP.

Here is what I said in the SOW.

*Activities performed under this proposal will be performed in accordance a Quality Assurance Project Plan approved by EPA on (4/9/2014). This approved document(s) should be used for all covered activities until superseded.*

When you talk to Chapin or Runkle (I got it right), please let them know it is \$50k and that Suzanne Pashkey is working on the budget breakout. I just need the SOW from them to attach. Do you think we need to run language by QA to quality assure our work?!@#
